

GWG 16.1 - Transparency Basic Blend Modes (ICCbasedRGB)

Darken

Multiply

Color Burn

Lighten

Screen

Color Dodge

Overlay

Soft Light

Hard Light

Difference

Exclusion

Hue

Saturation

Color

Luminosity

Opacity (0%)

A faint X is due to differences in the CMM and does **not** indicate a failure.

EXAMPLE

PDF/X output intent	ISO coated v2 300% (ECI)
Page group blending color space	DeviceCMYK
Upper object	ICCbasedRGB (sRGB)
Lower object	ICCbasedRGB (sRGB)
Rendering intent	Saturation
All group color spaces	DeviceCMYK
All groups	Non isolated, non knockout

A clearly visible X indicates that this blend mode is **not supported properly** which is **a failure**.
