

GWG 19.0 – DeviceN Overprint (Black)

OP is true for all topmost elements.

a

Vector

b

Image

c

Vector

d

Image

Cyan (DeviceN - 100C)
CMYK Black

Cyan (DeviceN - 100C0Y0K)
CMYK Black

- a + b: must be rendered to solid Black (100C100K) rectangles
A faint X means, that OP is not honored (or image was converted to DeviceCMYK for b)
- c + d: must be rendered to solid Cyan rectangles
- c: X means, that color space might have been converted to DeviceCMYK upfront (OPM 1)
- d: X means, that 0% Channels might have been ignored or color was converted
