## GWG 5.1 - Font subset and substitution

Placed FPS-file n°1

(VVLNKX+Myriad-Roman)

subsetted font	12345	456/8
expected result	12345	45678
- If all characters are correct and appear in the right order, the subset fonts have been processed		

correctly.

- If some characters do not appear or display in the wrong order, incorrect handling of subset fonts has occurred.
